

EDI PorterSM

EDI as a Service

EDI Porter is Tideworks' hosted service platform that makes EDI easier and less costly for your operations. We take the hassle out of day-to-day EDI management with an all-inclusive service that includes program management, EDI translation, visibility tools, and more.

- **Managed File Transfer Services:** Acting like an electronic post office, we distribute data to your trading partners securely and reliably.
- **EDI Translation & Cleansing:** We translate electronic messages from a format preferred by your trading partners to the format required by your applications. We also cleanse the data to filter out what is not required by your application, and we convert data from one set of values to another (e.g., translating ISO port codes to schedule D codes).
- **Data Archiving:** To meet your legal and contractual archiving obligations, we take care of storing the data we process on your behalf.
- **Compliance Enforcement:** Our sophisticated compliance enforcement engine allows us to set up enforcement rules for Customs (such as AMS in the U.S.) and other regulatory agencies that communicate enforcement data electronically, so that you don't need to develop compliance enforcement processes yourself.
- **Visibility Tools:** Many companies are hesitant to outsource EDI for fear of losing control. With EDI Porter, you'll have complete visibility of all EDI exchanges using our suite of visibility tools.

Why Tideworks for EDI?

Faster Startup

Tideworks already exchanges EDI with most international shipping lines, so we can implement EDI trading partnerships quicker than in-house EDI teams or managed service companies.

Full Visibility

Our user-friendly visibility tools enable you to monitor the status of EDI messages, so you can be sure everything is running smoothly.

We Sweat the Details

Our focus in the terminal operations niche means we stay on top of regulatory changes and technology developments for you.

More to Your Bottom Line

We deliver EDI Porter for less than half the cost of alternative EDI solutions. You don't pay for the overhead of dedicated in-house EDI infrastructure, plus our solution scales as your business grows.

“Our experience with TIDEWORKS’ EDI team has been great...(they) are very helpful and quick to resolve all our EDI issues within minutes / hours.”
